

Stichting Kunsttraject presents ongoing videopresentations

in the Kunsttraject window of De Wittenkade 170, Amsterdam

KUNST  RAJECT

From **25 september** till **25 november** you can

see the video '**National Geography**' by **Giorgi**

**Tabatadze** in the Kunsttraject window

Giorgi Tabatadze: "The project National Geography is based on a movie about 'photoshoping', cutting out the borders of my country while leaving all the conflict regions behind. Regions disputed so many years and shedding so many blood over this years. The idea was to show our real borders at present times, reshaping established one. Slowly through the end of the movie you get absolutely strange shape of the country, shape that we (Georgians) hysterically dislike and don't want to identify with it as ours."

*De videopresentatie wordt georganiseerd door Stichting Kunsttraject, met dank aan de gemeente Amsterdam, Stadsdeel West. Stichting Kunsttraject is een kunstenaarsinitiatief in stadsdeel West. [www.kunsttrajectamsterdam.nl](http://www.kunsttrajectamsterdam.nl).*
